

Process of Solving a Problem

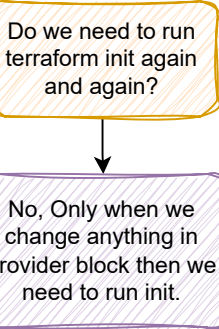

Terraform init, plan, apply, fmt

PS C:\DevOps Insiders\Batch15\Terraform\Vscode> terraform init

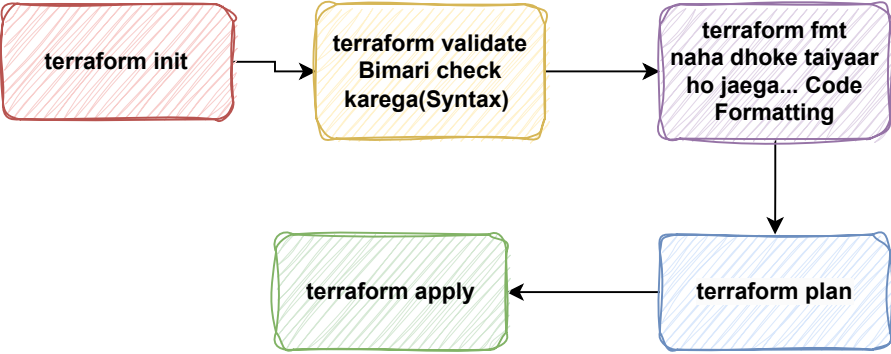

Provider ke bina kuch na hona hai...

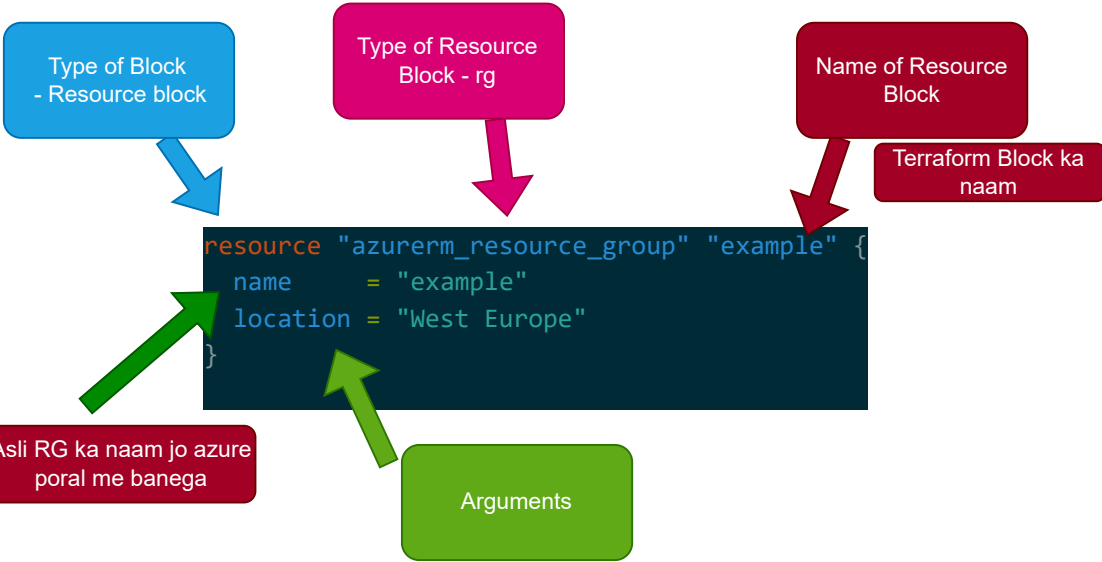

```
terraform {
  required_providers {
    azurerm = {
      source = "hashicorp/azurerm"
      version = "3.95.0"
    }
  }
}
```

WORKFLOW OF TERRAFORM

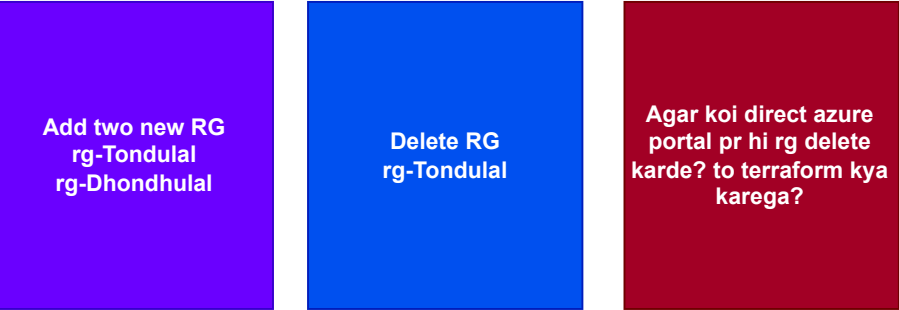

Resource Block Structure

Koi bhi automation karne se pehle manual karke try karna hai..

Nadi Kinare saanp hai...terraform destroy chalana paap hai... Sabse bada satya....Code...

Mind of Terraform - Teraform State File
